

## Applying the IADC HSE Case Guidelines Using BowTieXP Methodology and Software

Using experience from a safety case submitted to an Australian regulator, this 3 day BowTieXP Master Class will focus on the tools and techniques which can be used to support the Risk Assessment (Part 4) of an IADC HSE Case for MODUs.

### Master Class Programme:

#### DAY 1:

- Introduction to the IADC HSE Case Guidelines
- Risk Management Principles
- BowTieXP Methodology Theory
- Interactive BowTieXP Workshop

#### DAY 2:

- History & Future of BowTieXP
- BowTieXP Software Introduction
- Software Demonstrations & Hands on Learning
- Software Reports and Outputs

#### DAY 3:

- SEDCO 703 Rig HSE Case Study
- Practice HAZID Workshop
- Summary and Review

### Learning Outcomes:

- Understand how the BowTieXP methodology and software supports the IADC HSE case
- Use the BowTieXP methodology to identify and relate all risk management elements
- Use the BowTieXP methodology and software to complete HSE case section 4
- Be familiar with all of the major features of the BowTieXP software
